

Operation PETS offers emergency video telehealth sessions with a veterinarian

When you have a pet health concern after normal business hours, VetTriage veterinarians are on standby 24 hours a day to assist. For a small fee, you will be connected to the VetTriage veterinarians on a live video chat session. They will triage your pet and give you at-home care guidance, or if they determine hospital care is necessary, refer you to the nearest 24 hr veterinary emergency hospital.

Steps to Connect:

- 1 Using your mobile device or computer with camera go to www.vettriage.com/oppets or scan the QR Code below.
- 2 Follow the instructions on the VetTriage page to purchase and request your session with a vet.
- 3 The vet will join in minutes and triage your pet.
